

Time flies like a shooting star...

Time flies like a shooting star. I remember when I first started school, the teachers smiled at me and made me feel comfortable. I fitted in quickly and began to enjoy my campus life. When I was in Primary 2, the pandemic started. All students needed to stay at home and took online classes. I didn't like that. My neck was sore. I hoped we could go back to school soon. After a year, we were finally able to go to school. Many facilities reopened, like the tuck shop, library and music room. We could continue our wonderful school life again.

From Primary 1 to Primary 5, my teachers were all kind. They gave us many chances and forgave us for our fault. They not only taught us the discipline and knowledge but also encouraged us in various aspects.

Lastly, I want to thank all the teachers for guiding us. Thank you for providing us so many opportunities. I will graduate next year. I don't want to leave this school so soon. There are many marvellous memories. I will never forget my time here.
