

My Favourite School Trip in WKS

My favourite school trip is the recent trip to Wetland Park organised by our school. My teacher and I took the school bus with our classmates to visit the Wetland Park. I saw a lot of different birds and fish. There are many of them that I have never seen before. There are also many plants which I do not know their names. I like this kind of outdoor activity. It allows me to see things that I cannot see in everyday life.
