Time flies like a shooting star...

Time flies like a shooting star. Four years have passed away and I am already in Primary 5. I would like to share my unforgettable memory in WKS.

Raising jellyfish was one of my wonderful memories. I became a jellyfish ambassador in Primary 5. At the beginning, I didn't know much about jellyfish. I just thought jellyfish were poisonous. When I was first fed the jellyfish, I was very nervous. However, I gradually not afraid of them because they were very beautiful. When they swam near to me, I put some food in the water for them to eat. I was very happy to see them grow. Jellyfish are fascinating sea creatures because they have no bones, blood or gills. Some of the classmates fed too much food to the jellyfish and made it upside down. It was really funny. I am proud to be a jellyfish ambassador.

I want to thank my school for choosing me to be a jellyfish ambassador. I learnt how to take care of jellyfish and to be a responsible person. I am going to be a Primary 6 student and I hope that I can continue to raise jellyfish.

I love my school and I really enjoy the time with jellyfish, my classmates and teachers!
