

Time flies like a shooting star...

Time flies like a shooting star. It has already been six years since we graduated from kindergarten. Now, I am a Primary 6 student, and ready to graduate and go to the secondary school. However, I still look back at the memories while studying in WKS.

I transferred to WKS School when I was in Primary 3 since we were moving to Tai Po. I was so nervous on the first day of school. I was arranged into Class 3D. I didn't know anyone there. I hardly talked to anyone. Luckily, my class teacher, Miss Liu, welcomed me and introduced me to other classmates. I slowly adapted into the class and started making friends. This was how my primary school life started in WKS.

Along my primary school journey, I met a teacher named Miss Sun. She was my English NET teacher in Primary 3. She was an amazing teacher. She always rewarded us with small gifts for our hard work. Last year, she was even our leader teacher for the Time To Talk Public Speaking Competition. This brought us even closer to her. But sadly, she went to another school. She left WKS in early September. I missed her a lot.

Lastly, I would like to thank my teachers for teaching me these few years. I am growing up to become more industrious and hard-working. These lovely memories will be imprinted in my heart.
