

Time flies like a shooting star...

Time flies like a shooting star. I am a Primary 6 student now and I am going to graduate from WKS School in July. I am a little bit upset about that because WKS is a wonderful school!

When I look back, I remember the time I first came to WKS School. When I was in Primary 1, I did not feel nervous so I met new friends happily. However, no one wanted to be my friends. Luckily, my class teacher Miss Cheung helped me to make friends. This school was much bigger than the kindergarten. Miss Cheung always told me about the school. She was very kind and nice!

Talking about my unforgettable memory must be being the emcee of School Open Day ceremony! I had practised for many weeks with my partner. When the ceremony started, my heart beat as fast as a car. Halfway through the ceremony, suddenly the microphone didn't work all of a sudden. I was terrified because it was very urgent. I shouted a sentence very loudly. Then the teacher changed a new microphone for me. It was an awful experience!

Teachers are like my parents. I must thank them for their kindness and patience. They always support us. When we do something wrong, they do not shout at us at first. They help us to know right from wrong. I would also thank them for helping us to improve our knowledge. I am honoured to be a student of WKS!

In about two months, I will leave WKS School. I am a little bit upset. I will miss all my teachers and friends. I will be a great student at my secondary school. I will never forget what the teachers taught me!
